Academic Background - One additional page may be added

Indicate all university degrees obtained and those in progress (where applicable) starting with the most recent. If you hold a co-degree from more than one institution (e.g. under the Soutien aux cotuelles de these de doctorat agreement between Quebec and France) enter each institution separately. Do not enter honorary degrees here, they should be listed in the Distinctions section.

Also indicate research training, such as postdoctoral or fellowship training. Trainees only: also list undergraduate and graduate research training experience.

Details of Funds Requested and Currently Held - Instruction Page

All applicants must complete the Funding section which is common to all member agencies. This will populate the CV Module, Pages 8-10 (a, b, c, etc.). All applicants, with the exception of training award candidates and their supervisors, must attach the "Details of funds currently requested or currently held" pages numbered 11a, 11b, 11c, etc. (See items A and B below).

FILE ATTACHMENT - General Instructions

The following format should be adhered to for this attachment.

- 8.5" X 11" (21.5 X 28.0 cm) white single-sided paper.
- Margins of ¾" (2 cm).
- Minimum font size 12 point or 10 characters per inch.
- Six lines per inch, single-spaced, with no condensed type or spacing.
- Each page header must contain your name, the application submission date and the sub-section header, i.e., Funding - CIHR.
- Please note that as of November 2004, the "Details of funds currently requested or currently held" pages should be numbered 11a, 11b, 11c, etc.

A) All grant applicants should attach one page with the following information for each grant applied to or currently held as principal applicant or co-applicant.

1. Title of proposal
2. Funding source and Program name
3. Hours per week
4. Budgetary overlap (%) with current application
5. Renewable (yes or no)
6. Grant number (if applicable)
7. For grants currently held, describe any changes in design or direction since the grant was awarded.
8. Describe the conceptual and budgetary relationships of this project to the proposed research.
9. List employees paid out of this grant giving their names, categories and levels of technician or types of trainee.

B) For each grant currently applied for and currently held as principal applicant or co-applicant, also attach a paper copy of the summary from the original application, including its title.

Note : You must inform CIHR of any other support requested or received during the review period of this application.

Attachment Instructions

How to prepare and format all attachments:

Most Significant Contributions, Activities/Contributions, Interruptions/Delays, Patents/Copyrights (Part 2), and Publications (Part 2) details shall be contained in a CV attachment. The following format should be adhered to for this attachment.

- 8.5" X 11" (21.5 X 28.0 cm) white single-sided paper.
- Margins of ¾" (2 cm).
- Minimum font size 12 point or 10 characters per inch.
- Six lines per inch, single-spaced, with no condensed type or spacing.
- Number pages consecutively after CV (If, for example, the print-out of the CV ends on page 8, the attachment would begin with page 9.).
- Each page header must contain the name and/or PIN, as well as the application submission date and the sub-section header, i.e., Most Significant Contributions.

Most Significant Contributions

This section applies only to researchers, not to students. Identify a maximum of five (5) contributions, with a maximum length of one page, that best highlight your contribution or activities to research, defining the impact and relevance of each. (A contribution is understood to be a publication, literary or artistic work, conference, patent or copyright, contract or creative activity, commission, etc.) Your complete description may include the organization; position or activity type and description; from and to dates; and the basis on which this contribution is significant (i.e. relevance, target community and impact).

Activities / Contributions

The activities and contributions defined in this section should include both academic and non-academic achievements, and their impacts. Attach one page.

Interruption(s) / Delays

Identify any administrative responsibilities, family or health reasons, or any other factors that might have delayed or interrupted any of the following: academia, career, scientific research, other research, dissemination of results, training, etc. Common examples of an interruption/delay might be a bereavement period following the death of a loved one, maternity/parental leave, or relocation of your research environment.

Descriptions might include the start and end dates, the impact areas, and the reason(s) or a brief explanation of the absence. Attach one page.

Patents and Copyrights

This section should include detail for patents and copyrights for technology transfer, products, and services. Do not include Publications in this section.

Descriptions for patents/copyrights might include the title, patent/copyright number and date, country(ies) of issue, as well as the relevance or impact of this item and any inventor name(s) which pertain to it. Attach one page.

Publications List

List your most important publications and other research contributions over the past five years, according to the categories below. This is not necessarily a complete list, and is only intended to provide guidance. Categories can be added as needed. Use only items pertinent to the application. **There is no limit to the number of pages you can use.**

For Training or Salary Support Awards Candidates

- Candidates for training awards or New Investigator awards should list all publications, not just those of the last five years.
- All candidates for training or salary support awards must, for each multi-authored publication, define their role in the publication and indicate their percent contribution to the team effort.
- Candidates for training awards, with or without publications, are invited to comment on environmental factors that affected their capacity to publish.
- Candidates for salary support awards should, for multi-authored publications, underline the names of trainees whose work they supervised.

For Proposed Supervisors of Training Award Applicants

- Attach a maximum of two pages listing the titles and contributions over the past 5 years that will serve the application best.
